TO THE TRADE

Many years of square and honest dealings with Nurserymen and Florists all over the U. S. A. and Canada has created for me a host of friends, all of whom I would like to meet personally. Knowing this to be next to impossible, I take this means of thanking you, one and all, for the splendid business that you have favored us with in the past which has enabled us to grow from year to year and to extend to you an invitation to write us, call us, or better still, pay us a visit. We welcome your continued business and if you have not bought from us in the past, give us a chance to serve you in the future.

Yours very truly,
LOWELL H. McGEE

A MATTER OF POLICY

In late years, more and more concerns have been laying down policies governing treatment of customers. We have such a policy. It calls for building confidence, customer-confidence in our stocks, our service, our business attitude, in us.

The only way we've found of achieving this is by having the stocks, giving the service, demonstrating the attitude, and being the kind of people deserving of that confidence.

If you should observe that in any instance we have failed to fully live up to such a policy, you will do us a great favor to call it to our attention. You'll be in business a long time. The squarer we shoot the better you'll like to do business with us. And we like that.
